

LANADOL X-PRESS

High-performance special cleaning agent for less sensitive textiles for LANADOL wet cleaning

Properties

- LANADOL X-PRESS is a high-performance special cleaning agent for less sensitive textiles for wet cleaning.
- LANADOL X-PRESS is optimised for wet cleaning application conditions and temperatures from cold to 40 °C.
- LANADOL X-PRESS combines outstanding cleaning power, especially for persistent soils, with ultimate economic efficiency
- Highly efficient enzyme system for the removal of protein & starch spots
- Special low-foaming surfactant system for powerful grease, oil and pigment removal
- Innovative colour protection prevents colour transfer
- Anti-ageing/fibre smoothing system for brilliant colours and to prevent greying of textiles
- Gives textiles a pleasant texture and fresh fragrance
- LANADOL X-PRESS is free of phosphates, optical brighteners, EDTA, NTA and musk scents
- LANADOL X-PRESS meets the requirements for detergents and cleaning agents according to the Blue Angel award regulations for wet cleaning.

Chemical-physical data

Appearance:	Clear, light yellow liquid
Density:	1.02 g/ml
Viscosity:	180 +/-30 mPas
pH value:	6 - 7
Solubility:	Unlimited in water
Flashpoint:	80 °C (PMCC)

Application

LANADOL X-PRESS is recommended for wet cleaning less sensitive textiles and persistent stains in the LANADOL DRY process.

LANADOL X-PRESS not recommended for highly sensitive textiles (e.g. silk, angora, cashmere) and textiles with predominantly wool content

The use of LANADOL X-PRESS reduces the application time in the LANADOL DRY process.

LANADOL DRY process reduces the finishing effort and drying time to a minimum: Fast and simple finish!

Recommended concentration: 5 ml LANADOL X-PRESS per litre (0.6 ozfl/gal) of water.

LANADOL AKTIV is recommended for wet cleaning highly sensitive textiles in the LANADOL SENSITIVE or LANADOL DRY process.

For information on wet cleaning, please see the Kreussler *LANADOL brochure* or contact your *KREUSSLER field service employee*.

Notice:

The application of LANADOL AVANT is recommended for the pre-treatment of heavily soiled areas, in particular for the removal of oil and grease. We recommend the DEPRIT PROFESSIONAL product series for spot removal.

Storage and use

The product has a shelf life of at least 24 months in sealed containers.

After exposure to frost, warm LANADOL X-PRESS to at least 15 °C prior to use.

Store the product in a cool, dry place.
