Dinnerware

2023 CARE & CATERING

Arc UK, located in Worcestershire, is part of the Arc Group - an international leader in tableware. The group supplies a range of industries and markets with its Opal dinnerware, including hotels, restaurants, healthcare & hospitals, contract catering, education & nursing homes.

The fact that the Opal range is widely utilised throughout Europe speaks volumes about its quality and durability.

COMPLETELY OPTIMISED FOR HEALTHCARE

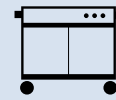

In 1958, Opal was developed as a new generation material for dinnerware by the Arc Group research and development department. Since then, it has been perfected and food service professionals all over the world have opted for this all-round professional material solution that is economical, ecological and practical.

Resistant to both thermal and mechanical shock: Up to 4 times more durable than vitrified ceramic.

Opal will continue to look brand new even after hundreds of industrial dishwasher cycles.

Suitable for use in hot service catering applications and equipment.

Regen friendly and compliant with superb heat retention.

Ergonomic products to keep your staff safe at work.

Perfectly stackable by design.

Perfectly Non-porous

2000 Commercial Dishwasher Cycles

The **Brush** collection has become the benchmark for Arcoroc Dinnerware and continues to brighten tables and trays. The brushed effect design in 8 colors - Cherry, Blue Jean, Blue, Dark Green, Green, Orange, Terracotta, Yellow - combines perfectly with the white color of the Opal to give the collection a modern feel. A wide range of dinnerware including plates, bowls and hot beverage sets, the collection now includes a range of cups in the iconic colors of the concept. Perfectly stackable items and unrivalled shock resistance make the Brush collection a must-have for food service professionals.

So Urban is a range of durable, re-usable & returnable glass containers. A real alternative to single-use plastic, the collection has been specifically designed for catering, take-away sales and delivery. In addition to being made of glass, a healthy material guaranteeing organoleptic quality and food safety, the containers offer many advantages: transparency for perfect presentation, stackable, lightweight, leakproof, microwaveable. Tempered glass, HDPE/PE lid.

A wide range that covers all requirements from starter to dessert

5x more resistant compared to a non-tempered glass item

Microwave safe (lid open)

Leakproof to transport safely

Perfectly stackable (optimized storage space and transport, no risk of getting stuck)

Perfect health control (non-porous, no migration possible)

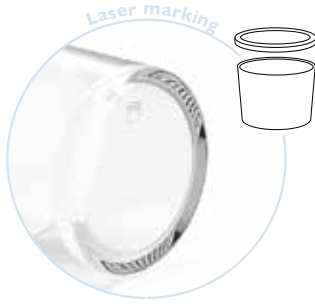

Withstands temperature differences of up to 130°

Onctuose

ARC SUSTAINABILITY COMMITMENTS

- REDUCING OUR IMPACT ON THE PLANET -

- Since 2010 we have reduced our CO₂ emissions by 27%
- 94% of all products sold in Europe are manufactured at our factory in France, which is 125 miles from the Centre of London
- Arc has been innovating in the food storage field for over a decade and helping the world waste less food.
- In recent years, our products have been designed to meet the expectations of today's customers. With cleaner materials, more environmentally-friendly processes and the recycling of our glass and packaging, we are committed to making eco-design the new standard for Arc Group products.

- CARING FOR OUR PEOPLE -

Arc has been renewing its commitment to the United Nations Global Compact of 2003 every year for the last 15 years, with the conviction that sustainable development is an essential lever for our success and more broadly, for that of society.

Arc is also a signatory to SEDEX, and has been for many years. Our association with SEDEX assures continual improved performance, compliance with legislation and the ability for third parties to have increased visibility and on how Arc develops and produces its products.

- LOOKING INTO THE FUTURE -

Arc has set a variety of sustainability goals for the future.

By 2030:

- Arc will have implemented new melting technologies that will reduce Arc's CO₂ emissions by 37%.
- Arc's water consumption in production will be reduced by 80%.
- Arc will have moved to 100% renewable electricity by 2030

By 2025:

- All Arc glass production by-products will be fully recycled.
- Arc's logistics CO₂ footprint will be reduced by 18%.
