Collections 2023

2023 defines the arrival of a new era: a shared elegance.

The latest hotel and restaurant concepts orchestrated by design professionals are based on minimalism and sustainability. Devoid of unnecessary elements, the spaces are pure and organic.

The Evidence collection and the Champagne & Cocktail coupe fit perfectly into this new atmosphere of luxury and simplicity. Monti is a collection with a vintage look but with a more refined and modest feel.

Metals and wood have become essential in design projects: the assembly of horizontal and vertical planes. In this spirit, Chef&Sommelier™ proposes the Symetrie collection: fluid and dynamic vertical stripes to bring movement and Brixton combining vertical and horizontal mouldings for more contrast and light effects.

A hypnotizing optical game....

Symetrie is a new collection from Chef&Sommelier™.

This line, with its wide range of products, meets the needs of restaurateurs, mixologists and caterers in search of difference and delicacy. This collection is characterised by the vertical lines that run through the parisons of its glasses, creating a hypnotic optical play. In keeping with the trend, the subtle optical lines highlight the wines and cocktails, without distracting from the taste.

Brixton

Today's staple on the bar shelves...

The **Brixton** collection brings back the authentic style of thick-bottomed structured tumblers. This balance between tradition and modernity will inspire mixologists and bartenders when creating new cocktails. The mouldings of the glasses bring a touch of sophistication to a bar and highlight any style of cocktail or spirit. The new Tubo is ideal for serving sodas, fruit juices or flavored waters.

*T*imeless curves...

The crystalline tumblers of the Absoluty collection are distinguished by their thick bases, which contrast with the fineness and brilliance of the bowls. The round, elegant and timeless silhouette of this line adapts to a wide range of interior styles: from the most sophisticated to the most casual of settings. From restaurant tables to mixologists' bars, the four glasses in this collection (with two high and two low versions) will enhance both the simplest of drinks and the most elaborate.
